Kevin C. Myers
Senior Engineer
ARCO Alaska Incorporated
P. O. Box 360
Anchorage, Alaska 99510

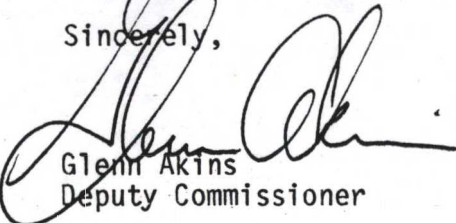

Dear Mr. Myers:

The Department has reviewed Mr. G. Scott Ronzio's letter requesting modification of Air Quality Control Permit to Operate AQC-470B to include two heaters at drill sites in the Kuparuk field. Based on our review, permit AQC-470B is amended to include the operation of two ten million BTU heaters, one at Drill Site 1-F and one at Drill Site 1-H.

No reporting requirements are needed for these heaters. Therefore, Exhibit A of Permit AQC-470B remains unchanged.

If you disagree with any portion of this decision, you may request an adjudicatory hearing in accordance with 18 AAC 15.200-310. The hearing request should be mailed to the Commissioner of the Alaska Department of Environmental Conservation, Pouch 0, Juneau, Alaska 99811, or delivered to his office at 3220 Hospital Drive, Juneau. Failure to submit a hearing request within thirty days of receipt of this letter constitutes a waiver of your right to judicial review of this decision.

Sincerely,

Glenn Atkins
Deputy Commissioner
